

## PRODUCT GUIDE

**EXPERIENCE THE AUGER TORQUE DIFFERENCE** 

RUSSIA

# A Customer-Driven Global Company

Established in Europe in 1998, Auger Torque has created a new standard in the Earth Drill and Trencher Attachment market by putting you, the customer, at the centre of everything we do.

In 2005, after surveying the market carefully, we released a new range of innovative products, designed to provide unrivalled reliability and cost effective operation.

Auger Torque is proud to have become part of the Kinshofer Group of companies in 2015. With the backing of the German attachments giant Auger Torque has since enjoyed even greater growth in all areas of its business operations.

Auger Torque's five manufacturing bases around the globe are busy satisfying the ever-growing demand for high-quality products in over seventy countries and on all seven continents.

Auger Torque - A manufacturing company with Global distribution and dealer networks.

### **Innovation and Special Features**

### **Robust Construction**

#### DURABILITY

- O Manufactured from high grade materials and precision engineered components
- O Designed to withstand extreme working conditions
- O High grade synthetic gear oil used for extra protection and long service life

### Non-Dislodgement Shaft

- SECURITY
- O Unique design
- O Single piece drive shaft
- O Lifetime warranty against shaft dislodgement

#### **Pilots**

#### **TOUGHNESS & ACCURACY**

- O Tungsten, Extra Dig and Rock Pilots
- O Tough forged construction
- O Easy fitting

### **Planetary Gearbox**

#### POWFR

- O Designed, manufactured and assembled by Auger Torque
- O Torque amplified
- O High efficiency
- O Extreme durability

### **Shallow Pitch Flights**

#### **EFFICIENCY**

- O Piling industry technology
- O Holds earth on flights on removal
- O Most efficient ratio between quantity of earth removed and speed of operation

#### **Pilot Extensions**

#### ACCURACY

- O Allows an auger to hold its axis accurately in tough ground conditions
- O Improves performance on sloping ground
- O Simple fitting

- O Innovative design significantly reduces swap-over time
- O Easy adjustment to 3 heights
- O Available for S5, S6 and PA augers

### **Constant Spiral Cut**

#### IMPROVED PRODUCTIVITY

- O Fresh cut every revolution
- O Tooth holders angled to direct spoil onto auger flights efficiently
- O Spoil broken up thoroughly
- O Avoids clogging

## **Designed for Your Environment**

#### **EARTH DRILLS**

#### Applications include:

- O Fencing
- O Landscaping
- O Tree planting
- O Well boring
- O Foundation piles
- O Screw pile installations
- O Ground source heat pumps
- O Pole and mast installations
- O Road signage
- O Sound barriers
- O Exploration and research

#### **TRENCHERS**

#### Applications include:

- O Drainage
- O Irrigation
- O Ground source heat pumps
- O Fibre optic installations
- O Electric cable installations
- O Narrow strip foundations
- O Gas and water piping

Our products incorporate many development features. The trench cleaner on our Trencher Attachments ensures a good clean cut with no residual spoil.

At Auger Torque we realise that one of the best ways to continually improve our extensive range of quality attachments is to not only listen to customer feedback but to put practical ideas into production. This policy of direct customer involvement has given us the reputation of being the specialists in the trenching and auger drive industry world-wide.

New products featuring the latest technology ensure that we are able to maximise your efficiency.

Quality is at the forefront of our philosophy.

Our R&D Test Facility puts our attachments through rigorous test procedures that exceed real-life demands.

All of our gearboxes use precision engineered components.

### **EARTH DRILLS**

### Features of our Earth Drills

#### **FORGED HOOD EARS**

Standard with all Earth Drills in areas that we know will take a lot of strain. All hood pins are locked for extra safety making it impossible for the hood to detach from your hitch.

#### **HOSES & ADAPTORS**

All Earth Drills come standard with high quality hoses and adaptors (excludes larger units. QRC's not included).

## HIGH QUALITY HYDRAULIC MOTORS

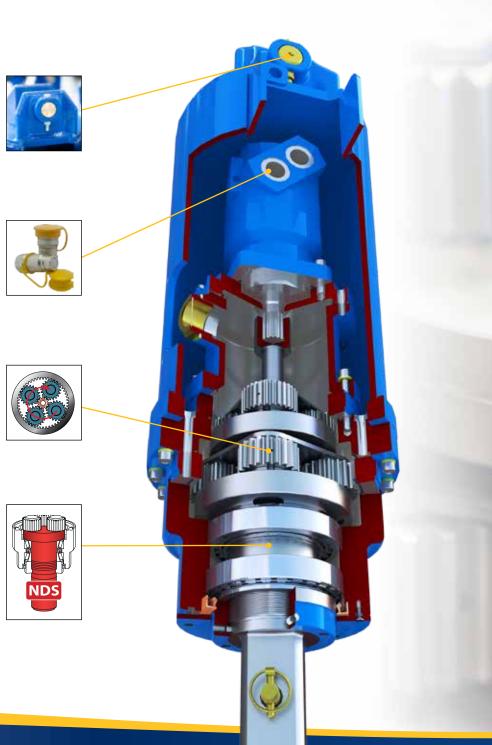

Auger Torque's huge buying power means we work closely with high quality suppliers to develop the most reliable attachments available on the market today.

#### **EPICYCLIC GEARBOX**

Torque is amplified by using the unique Auger Torque planetary gearbox. This system allows the motors output torque to be multiplied with extreme efficiency as well as ensuring the durability and reliability you need.

### NON-DISLODGEMENT SHAFT

Unique to Auger Torque, the Non-Dislodgement Shaft is a single piece drive shaft assembled top down and locked into the Earth Drill housing. This design guarantees that the shaft will never fall out, making for a safer work environment, not only for the operator but also any surrounding workers, a MUST-HAVE FEATURE for any safety conscious company.

DON'T LEAVE YOUR TEETH DOWN THE HOLE!

Augers shown feature Shock Lock™ Toothholders. Rock Teeth Augers are also available.

### **AUGERS**

### Features of our Augers

#### **HUB OPTIONS**

Augers are available with all major standard hubs on the market, including:

2", 2.5", 3"and 4" Hex 50mm, 2" and 65mm Round 57mm, 75mm, 100mm, 110mm and 130mm Square ...to name but a few.

#### **HEAVY DUTY TUBE**

We know that our Augers can expect a tough life so we only use the highest grade steel and vary our tube size according to machine size and application. Our Augers have a reputation of being the toughest on the market.

#### **SHALLOW PITCH FLIGHTS**

By working with and, more importantly, listening to operators feedback we have developed the perfect pitch for our flights. It will cut at its maximum efficiency and, most importantly the spoil will stay on your Auger when you remove it from the hole.

## SHOCK LOCK Tooth Locking System

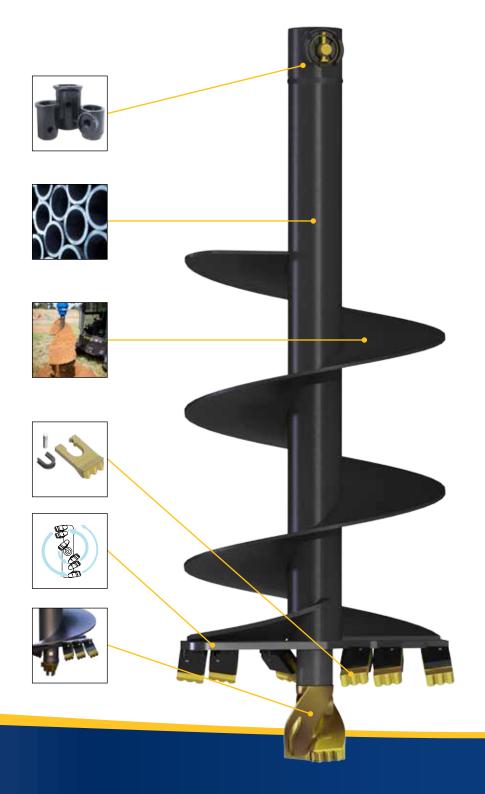

Are you tired of losing your teeth down the hole? With our patented **Shock Lock<sup>TM</sup>** Tooth Locking System loss is now a thing of the past. The simple but effective locking pin holds teeth secure in both directions.

#### **CONSTANT SPIRAL CUT**

Our boring heads are designed with a Constant Spiral Cut. Teeth are located so that each makes its own fresh cut on every revolution and are angled to direct spoil towards the centre of the auger. The tooth cutting angle ensures spoil is broken up thoroughly to avoid any clogging.

#### **PILOT AND TOOTH OPTIONS**

Auger Torque Augers are offered with many different tooth and pilot options to suit your specific need. For example in the S4 range we offer up to eight different combinations and we have the know-how to help you select the optimal configuration.

With our patented **Shock Lock<sup>TM</sup>** Tooth Locking System tooth loss is now a thing of the past. Using the **Shock Lock<sup>TM</sup>** pin and rubber insert in our unique **Shock Lock<sup>TM</sup>** tooth holders ensures your Auger teeth are safely locked in place and protected against shock fractures.

Replacing worn teeth is a breeze with this system, simply knock out the old pin with a standard hole punch and the tooth will slide out of the holder with ease. Acclaimed as the best system on the market you will never need to worry about fitting spare teeth due to loss again.

PA Rock Teeth & Pilot **LARGER AUGERS** Augers of a larger diameter and length can be manufactured for use with these Earth Drills, but

\* Overall Length given includes the auger fitted with wear parts.

For Augers over 1.2 metres diameter please call one of our sales offices for further information.

#### **WEAR PARTS FOR GROUND CONDITIONS**

ROCK (Taper Lock)
For very hard ground and tarmac where extra cutting is needed and high wear is expected. Most effective on machines with high down pressure.

## **Hard Rock Auger**

## For the most demanding drilling situations

#### **HUB OPTIONS**

Tapered Rock Augers are available in 3 popular sizes;

75mm, 100mm and 110mm Square.

#### **HEAVY DUTY TUBE**

We know that the Hard Rock Auger range will be be used for the toughest applications so we only use the highest grade steel and vary our tube size according to machine size and application.

#### **SHALLOW PITCH FLIGHTS**

By working with and, more importantly, listening to operators feedback we have developed the perfect pitch for our flights. It will cut at its maximum efficiency and, most importantly the spoil will stay on your cutting head when you remove it from the hole.

#### **TAPERED CUTTING PATH**

Our cutting heads are designed with a Constant Spiral Cut. Teeth are located so that each makes its own fresh cut on every revolution and are angled to direct spoil towards the centre of the Cutting Head. The tooth cutting angle ensures spoil is broken up thoroughly to avoid any clogging.

#### **ROCK PILOT AND TOOTH**

Auger Torque Tapered Cutting Heads are offered with our rotating Rock tooth and pilot to suit your hard rock needs.

#### **FEATURES**

- O Drilling performance is increased due to precisely calculated tooth positions along the edges of the cutting head
- O Improved productivity when cutting through hard ground and fractured rock
- O The positioning of the teeth increases the penetrative forces which can be found on the tooth cutting edge
- O This increase in force fractures the substrate into large pieces bringing them to the surface at an increased rate compared to traditional cutting heads

# Truck Cranes & The Rope Wind Hitch

Growing in popularity, truck cranes allow a great deal of flexibility when working off site. On-board hydraulics allow trucks to deliver materials where no loading facilities are available.

Equally, remote working can be made easy by using the truck crane

boom for earth drilling operations. Flat bed trucks equipped with Truck Crane Earth Drills turn telegraph and power pole as well as street light installations into a single man operation and foundation piling can all be facilitated with the use of one vehicle.

The ingenious Auger Torque Rope Wind Hitch allows for safe and secure storage during transit without the need to disassemble the unit from the boom.

#### **BOOM CLAMP**

Auger Torque manufactures all hitches in-house, ensuring custom precision fit to any crane\*.

#### **ROPE WIND HITCH**

A simple but effective solution for transporting an Earth Drill on a Truck Crane. Utilising the rotation of the Earth Drill the unit can be lifted up under the boom of the crane after use and locked into position, making the whole unit secure during travel.

\*Contact Auger Torque for further details.

# **Mast-Based Drilling Rig**

A quick and efficient attachment for precise and accurate drilling of large depth holes.

#### **FEATURES**

- O Precision-engineered gearbox
- O Interchangeable hitch assembly
- O High grade cable tension assembly
- O High tensile galvanised steel winch cable
- O Hose guide rail for neat hose connections
- O Easy access pulley grease points

#### **APPLICATIONS**

- O Pre-drilling for pile driving
- O Dewatering
- O Auger cast piles
- O Marine foundations
- O Permanent retaining walls
- O Exploration and research

## **Screw Pile Installations**

Many of Auger Torque's Earth Drills, from the robust Earth Drill 10,000 upwards, are excellent tools for screw pile installation due to their high levels of torque and range of rotational speed.

Couple this with the all new electronic torque metering linkage block which has an accuracy rating of over 99% and you have all you need for fast and precise Screw Pile installation.

Screw piles can be used as a steel foundation solution for railway and highway installations, masts, towers, cantilever gantries, platforms, lighting columns and sign posts. They support structures in both tension and compression, providing an ideal solution where overturning forces are significant or when ground conditions aren't suitable for other methods of foundation.

Quick and easy to install, in many cases the piles and associated structures can be installed in a day. Using the torque metering linkage block, applied torques can be displayed and logged for data analysis.

Made from galvanised steel, Screw Piles are also maintenance free and reusable after removal from temporary installations.

#### **BENEFITS OF SCREW PILES INCLUDE:**

- O Quick and easy to install
- O No concrete mixing or curing time
- O No excavations needed or spoil to remove
- O Suitable for soft or mixed composite ground
- O Installations possible in low temperatures and wet conditions
- O Can be installed around existing underground services
- O Removable and re-useable

Screw Piles can be made to customers own specifications - talk to your closest Auger Torque main office for more information.

# **Screw Pile Torque Heads**

A new era in the world of Screw Pile Torque Heads

Auger Torque is proud to announce the release of our brand new XHT Series Torque Heads. Specifically designed and ideally suited to foundation screw pile applications this series heralds a new era in the world of screw pile torque heads.

The new torque heads are available to suit machines from as little as 24T all the way to 50T and are designed and manufactured in-house at Auger Torque's UK facility, guaranteeing class leading workmanship and the reliability Auger Torque is famous for.

#### **INTEGRAL GEAR OIL COOLING**

Our unique design allows for efficient oil cooling via auto circulation of the fluid without the need for an external mechanical pump. This system effectively protects your investment during extreme high torque screw pile applications.

#### **EPICYCLIC GEARBOX**

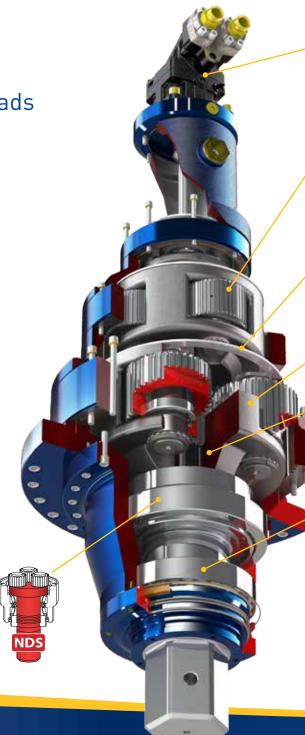

Torque is amplified by using the unique Auger Torque planetary gearbox. This system allows the motors output torque to be multiplied with extreme efficiency as well as ensuring the durability and reliability you need.

# HIGH QUALITY HYDRAULIC MOTORS

As with our Earth Drill range, we use the highest quality suppliers to develop the most reliable attachments available on the market today.

#### **NON-DISLODGEMENT SHAFT**

Unique to Auger Torque, the Non-Dislodgement Shaft is a single piece drive shaft assembled top down and locked into the XHT Torque Head housing. This design guarantees that the shaft will never fall out, making for a safer work environment, not only for the operator but also any surrounding workers, a MUST-HAVE FEATURE for any safety conscious company.

# **Alignment Monitor**

When accuracy is key, The Auger Torque Alignment Monitor is an essential tool for ensuring your application is precise and quick.

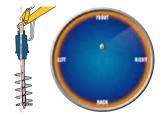

Unrestricted by parent machine size, the Alignment Monitor is easy to install with your existing equipment. Now the operator can see the alignment from all angles, there's no need for additional operatives to watch over the installation.

#### **FEATURES**

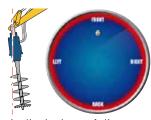

- O One man operation
- o Plug and play capability
- O Alignment display easily installed in operator cab
- O A compact, bright colour interface
- O Alignment sensor fits to your existing earth drill
- o Sensitivity adjustment to suit the application
- o IP54 rated suitable for use in all weathers
- O 12-24V operating range

Application is aligned

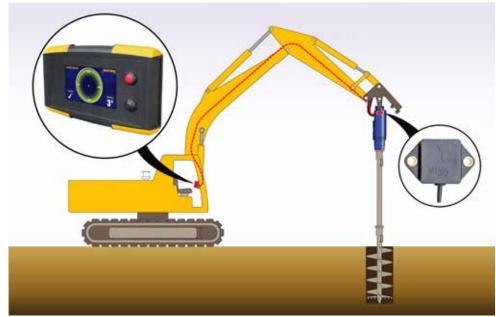

Application is moving out of alignment

Application is out of alignment

# **Torque Monitor**

Applying the correct torque during the installation of Screw Piles is paramount to ensure the structure is safely secured.

Receiving applied torque data in real-time, which is accurate to 99.7% for this critical procedure is made easy with this new Auger Torque device.

Compatible with the majority of our Earth Drills, the Torque Monitors can measure values up to 65,000Nm. The sophisticated sensors inside send instant data to a hand-held PDA, allowing operators to work with ultimate efficiency.

#### **FEATURES**

- O Measure up to 65,000Nm
- O Quick and easy to install
- O Correct torque measurement when installing screw anchors to an accuracy of 99.7%
- O Allows operators to work with ultimate efficiency
- O Wireless transmission
- o Real time data transfer
- O Compatible with Auger Torque and OEM earth drills

Optional Extras: Handheld PDA

## TRENCHER ATTACHMENTS

### Features of our Trenchers

# HIGH QUALITY MOTOR AND GEARBOX

Using only the highest quality hydraulic motors that allow flow rates of up to 150LPM and then amplified by Auger Torque's own 'bullet-proof' planetary gearbox means that our trenchers have the reliability you need and the power to ensure your trenching is carried out with ease.

#### **EPICYCLIC GEARBOX**

Torque is amplified by using the unique Auger Torque planetary gearbox. This system allows the motors output torque to be multiplied with extreme efficiency as well as ensuring the durability and reliability you need.

#### **HOSE & ADAPTOR OPTIONS**

All Trenchers are supplied as standard with high quality hoses and adaptors.

# MULTIPLE TEETH COMBINATIONS

Chains are available in a number of different teeth configurations for trenching in soft ground, mixed grounds and even permafrost, allowing you to get the job done quickly.

#### **ADJUSTABLE DEPTH SKID**

A great feature that will make your job much easier is the precision depth control skid, which enables the operator to set the machine at up to three different trench depths.

#### **RAPID CHAIN ADJUSTMENT**

Utilising a simple grease point and grease gun, chain adjustment is quicker than ever.

# The days of your trenching bucket may well be over.

The laborious task of digging a trench has been transformed since the advent of the Trencher Attachment.

Suitable for Skidsteer Loaders and Excavators, Auger Torque's range of Trenchers cover depths from 0.6 to 1.5 meters and widths up to 350mm. The spoil is piled neatly to one side of the trench by the integral auger.

Experience how Trencher Attachments can make light work of your construction project.

# **Sweeper Broom**

Auger Torque Sweeper Brooms make site clearance a breeze. Offering easy adjustment, simple brush replacement, high quality hydraulic motors and low maintenance design are just a few of the features.

With the optional high capacity, low profile water spray system for keeping airborn dust to a minimum, our brooms really do stand out from the rest.

Available for Skid Steer Loaders, Front End Loaders and Telehandlers.

#### **FEATURES**

- O 1800mm sweep width
- O Forward and reverse motion
- O Fit motor to left or right side of sweeper to suit hydraulic connections
- O Lockable bucket cover for convenient brush access
- O Lightweight aluminium brush assembly Easy brush replacement
- O Simple brush depth adjustment
- O Reversible bolt on cutting edge
- O Easy-change rubber dust suppression skirts
- O Water spray system (optional)
- O Rear guide wheels
- O Low profile design for enhanced operator visibility
- O Low maintenance

#### **SWEEPER 1800**

Oil Pressure Range: 240 Bar max

## **Mixer Bowls**

Available with a 180 Litre capacity, the Auger Torque Mixer Bowl attaches quickly and easily to our Earth Drills.

Mixing in inaccessible areas where stand alone machines are not practical has never been easier. Skidsteer and Excavator mount brackets are available. A Mixer Bowl is the perfect addition to our Mini Loader Earth Drill range.

Ideal for fencing contractors, with the aid of the Mixer Cradle Hitch the Auger can be quickly removed and the Mixer Bowl attached and locked in place with the standard Auger Pin. After the concrete has been laid the Auger can be replaced for the next post.

When used on Skidsteer machines the mixer bowl requires the use of a mixer cradle that is mounted easily to any of our Skidsteer loader frames.

# **Hedge Trimmer**

We are pleased to announce a new addition to our ever increasing line of high quality attachments. The Auger Torque T150 Hedge Trimmer.

The Auger Torque Hedge Trimmer is the perfect addition for excavators (1.5T - 8T) and Skidsteer loaders, and offers a variety of motor sizes to suit your application. The newly designed mounting frame allows you to quickly switch the Hedge Trimmer between the left and right hand side of the parent machine. When fitted to a Skid Steer, it can also be used to cut grass and brush. Attaching the optional tooth extension provides a full 2.5m cutting length. This is sure to make trimming more precise, efficient and will provide yet another way to expand the versatility of existing machines.

## **Variable Mulcher**

Whether you are tackling overgrown ditches, low level vegetation or whole tree removal, the Auger Torque Variable Mulcher attachments offer the ideal solution with perfect results.

Suitable for Excavators and Skidsteer Loaders, the Variable Mulcher provides a working width up to 1.5m, and has the unique feature of being able to change the whole tooth drum instead of individual teeth, saving a LOT of time in the process.

#### VM1000 **VM1500** Oil Pressure Range: 220-240 Bar 85-95 lpm 60-70 lpm 5T - 10T Excavators 10T - 15T Excavators Skidsteers Drum Cutting Width: 1000mm Drum Cutting Width: 1500mm 2400rpm (machine dependant) 2400rpm (machine dependant) Drum Speed: Max. Log Dia: 120mm Max. Log Dia: 1229mm 1820mm 529mm Unit Height: 953mm Unit Depth: 794mm Unit Depth: 994mm Unit Weight: Unit Weight: 800 ka

#### **FEATURES**

- o Replaceable toothed cutting drum
- o Working width options of 1m and 1.5m
- o Heavy duty steel construction
- o Hinged ddoor for easy drum access
- o High quality motor and hoses
- o Easy access maintenance panels

#### **APPLICATIONS**

- o Ground clearance
- Woodland pathway creation and maintenance
- o Clear and maintain vegetation
- o Tree and hedge trimming
- o Mulch trees and hedges down to ground level
- o Fire break creation

# **Log Splitter**

It's quick and efficient. Augertorque's new Log Splitter for processing and recycling logs.

The compact and robust Log Splitter makes light work of processing those fallen trees into manageable pieces.

As the Log Splitter rotates, the self-guiding threaded body engages with the timber and draws the splitter into the log. The conical shape quickly works its way through the log, splitting the log in two. For larger logs, the Splitter can be repositioned to continue the split along the whole length of the log.

Earth Drill Compatibility: X2000 - 4500MAX

Diameter: 180mm
Length: 300mm
Hub Options: 65 Round
Unit Weight: 14.6 kg

Technical data may be subject to change without notice.

# **Stump Planers**

Removal of tree stumps is a job which, at best, is noisy, messy and time consuming. Traditional methods of removal shower chippings over a wide area making clean up a time-consuming exercise.

With the Auger Torque Stump Planer, tree stumps are removed effortlessly and quietly and clean up time is reduced significantly.

The Auger Torque Stump Planer is the quick and easy attachment to any Earth Drill for the effective, clean removal of tree stumps of any size.

If you need to clear ground in preparation of works or earth drilling there is no better way to remove the remains of trees. Stump Planers are available in numerous sizes with a range of different hub options for different demands.

Quick and easy with minimal mess compared to traditional stump grinding makes this a must-have product for those working in ground preparation and woodland maintenance.

Hardened Steel blades

Hardened Steel pilot

## **EXCAVATORS 1 - 5 TONNES & SKIDSTEERS**

Earth Drill Compatibility: X2500 - 4500MAX

 Diameter:
 250mm

 Length:
 635mm

 Hub Options:
 65 Round

 Unit Weight:
 25 kg

Technical data may be subject to change without notice.

## **EXCAVATORS 4.5 - 8 TONNES & HIGH FLOW SKIDSTEERS**

Earth Drill Compatibility: 5500MAX - 8000MAX

 Diameter:
 350mm

 Length:
 675mm

 Hub Options:
 75 Square

 Unit Weight:
 33 kg

Technical data may be subject to change without notice.

The unique pilot engages with the top surface of the tree stump drawing the tool down allowing the blades to engage with a clean horizontal cut.

As the blades rotate they shave the wood into a tidy pile and pull the planer down further.

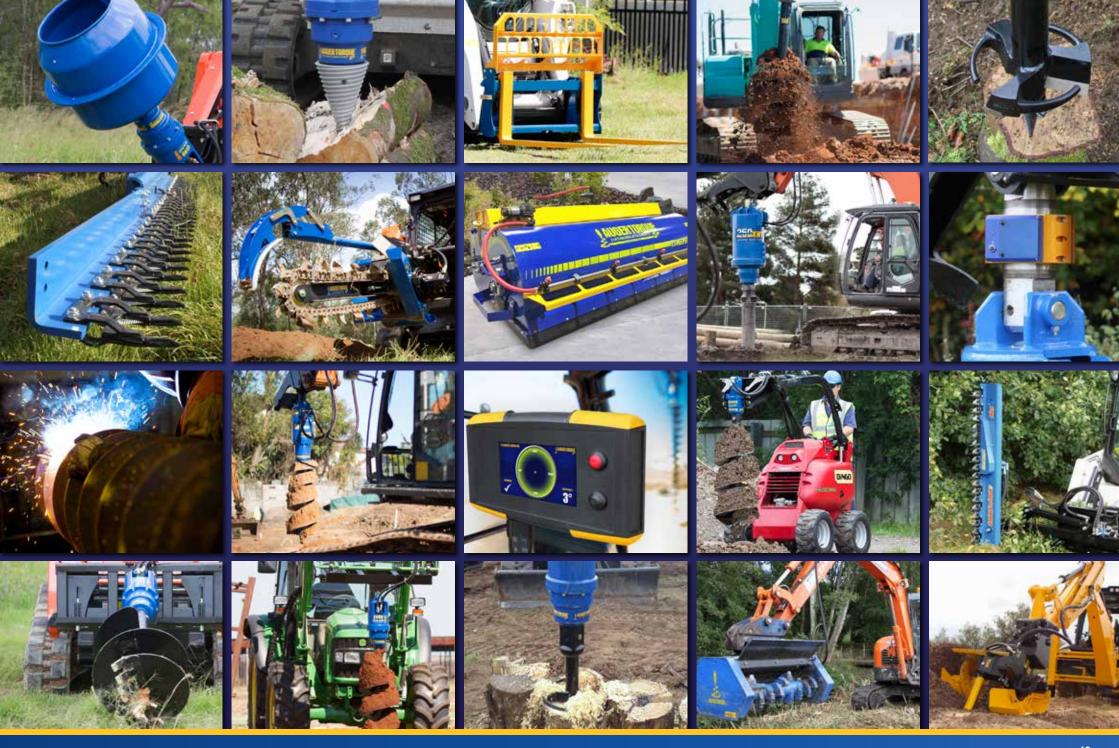

When the planer has achieved a deep cut, reposition to overlap the first hole and repeat the process until all of the stump is removed.

Stump removal is now a clean and quiet operation which can be performed quickly and efficiently by a single operator.
